To be a part of company that indulges professional growth which provides challenging and rewarding career while allowing me to utilize my knowledge and skill.

EXPERIENCE

2021 – 2023

FULLSTACK WORDPRESS DEVELOPER, PIXEL DEVCODE

At Codenimo, I worked as a Fullstack Web Developer, where I played a crucial role in both frontend and back-end development. My responsibilities included designing, coding, and maintaining scalable web applications that enhanced user experience and met client requirements.

2023 – 2024

SELF-EMPLOYED PROGRAMMER

As a self-employed freelancer, I specialize in various aspects of programming and development. My services include designing and coding websites, creating custom web solutions, and developing desktop applications using Java Swing. In addition, I offer website fixing and maintenance services, ensuring your website remains functional and up-to-date, similar to Quality Assurance (QA) tasks.

2025 – PRESENT

INDEPENDENT CONTRACTOR (SOFT-ENG), NDA

I previously worked with a tech company on a confidential project covered by a non-disclosure agreement (NDA), so I'm unable to reveal specific details. However, the experience involved cutting-edge technologies and provided a valuable opportunity to sharpen my development skills in a professional setting. It was a significant step in my growth as a developer, and I'm grateful for the insights and experience I gained during that time.
